- WARNINGS

 Keep out of reach of children.

 Do not disperse into the environment after use.

 Protect can from frost.

TEMPERATURES

Storage temperature: from 5° to 30° C. This product must be applied to surfaces with temperature between 10°C and 30°C.

WHAT IT'S FOR

- · Protects and sanitizes grouting
- · Facilitates dirt removal and routine cleaning
- Prevents water and stains from being absorbed into the surface

ADVANTAGES

- Ecological product: water-based
- Ready to use and easy to apply
- Safe for use with a spray applicator
- · VOC free: eco-friendly treatment
- · Will not alter the colour of grouting
- Odourless
- · Water-based technology: drastically reduces treatment times
- · Can be applied to surfaces with residual humidity

HOW TO USE IT

No dilution required: The product is ready to use.

Instructions for use: Clean the surface using **FUGANET** detergent. When the surface is dry, spray **FUGAPROOF** directly onto the grouting and dry any excess product using a cloth. The surface can be walked on after 4 hours

Do not wet the surface in the first 24 hours after treatment. Any dry residues that were not removed during application can be removed with MANUTENZIONE PER TUTTE LE SUPERFICI or CLEANER PRO, diluted 1:30.
